WSA Master Sche...

Val, updates completed--go ahead and do a sanity check. Reference Task 143 (K6 Cigs...) Ashland wanted this task added. Should the date be changed to reflect when the cigs will be at the CRO for start of Clinical Conduct? If so, what date would that be? Also, Task 145, Clinical Conduct Start. DRB has the start date 5/6/04 with a final report 5/6/05. The schedule you just updated has 5/4/04 with a final including ST & LT SDS input of 4/14/05. The schedule that I am sending you reflects the DRB start date of 5/6/04 and ending 4/18/05--gives you a few more days. Is this OK or do you want me to go back to your submission and use 5/4/04 and 4/14/04?

Dave

Dave:

Attached please find my updates to the K Series LT Schedule. I've highlighted all changes in underlined fuchsia.

If you're planning on transposing from this file to your file and want me to look to see if all changes were integrated, just let me know.

Thanks,  
Valerie
